Bachelor of Arts Subject : Sociology

Program Specific Outcomes

1. The programme seeks to develop in students the sociological knowledge and skills that will enable them to think critically and imaginatively about society and social issues.
2. It will give a better understanding of real life situations with an ability to apply sociological concepts and theories to the real world and ultimately their everyday lives.
3. It will give an ability to demonstrate sociological understanding of phenomena for example how individual biographies are shaped by social structures.
4. It will inculcate observation power as a sensible observation power is necessary to identify the research problems in field study so that a perception about human society develops.
5. Students get to understand sociology as a science, in its form and how it is related to other disciplines.
6. Students are acquainted with Ancient, Middle age and Modern times civilization. The process of socialization and individualism is explained to them.
7. Students are expected to gain the basic idea regarding the various fundamental concepts, approaches and different thoughts propounded by the eminent sociologists in Sociology.
8. Students are able to apply these theoretical as well as practical ideas to understand the society in which they live.
