RESEARCH POLICY

Academic institutions are required to engage in three activities: teaching, research, and extension. Research is one of the pioneering components of academic activities that assist the institution in achieving excellence in the area of education. It also involves learning and knowledge development. Research and development initiatives aid in the dissemination and creation of new avenues of knowledge, encourage innovation, and stimulate improved learning and teaching among faculty and students at Govt. P.G. College, Guna (M.P.). Research is the source of information that produces fresh energy, constructs trimming facilities, promotes research publications, fosters partnerships, and becomes a member of an engaged community that shares the mission objectives. Taking these aspects into account, Govt. P. G. College Guna (M.P.) established and implemented its Research Policy.

Aims of the research policy

The goal of the research policy is to develop a dynamic research environment among academics and to promote research aptitude in students. The policy will serve as an overall foundation for conducting research efforts. It also aims to identify major areas of study with significance, thus augmenting the college's vision and mission. The research policy also emphasizes contributions to the nation and society in its entirety.

Scope

This research policy serves as the foundation of the college's research ethics and is followed in all departments. It also provides recommendations for how the College's Research Council should operate.

Research Strategy

Research strategy defines the research objectives and defines the action plan needed to achieve these goals. The research objectives are listed below:

- Improve research quality and record of academic research.
- Increased funding for external and internal research.
- Promote fellowship/scholarship programs for researchers.
- Support national, regional and industry research and development policies.
- Encourage research within the framework of MOUs and linkages.

Objectives of Research Policy

The following are the main objectives of the research policy: To reinforce research as a top priority.

- To provide a foundation of regulations and guidelines for the management of research and development.
- To promote and support ethical research practices.
- To establish and foster a research culture that takes ethical issues into account.
- To introduce legal guidelines for fair research conduct, intellectual property rights, patent benchmarks, cyber laws, and ethical research procedures.
- To offer the necessary assistance for fulfilling all statutory and regulatory requirements for conducting research.
- To provide the essential assistance in achieving all regulatory and legislative standards for conducting research.
- To assure that all researchers, instructors, students, and staff are fairly treated.
- To promote awareness in society via various research efforts and by providing adequate attention to the college's socially beneficial research programs.

Research Policy

The college must have a well-defined research quality that serves as a guideline for scholars, faculty, and all other people involved.

- To promote unique, high-quality fundamental and applied research in science, literature, commerce, and all connected and allied sectors.
- Identify developing research fields and encourage academic members to do research in these areas.
- To establish relationships with industry and business groups in order to uncover possible study areas, surveys, and other fundamental research inquiries.
- Obtaining projects, market surveys, and other research operations in order to obtain support from other company houses, industries, NGOs, boards, and forums.
- To encourage academic members to apply for research grants from national funding bodies such as MPCST, SERB, DBT, DST, ICSSR, UGC, and others.
- Identifying faculty members who may serve as research leaders and encouraging them to participate in research initiatives, studies, and surveys.
- To provide financial support for the publication of research papers and conclusions.
- To provide a proper forum for staff members, scholars, and students of Govt. P.G. College, Guna (M.P.) to publish their research results and to encourage them to bring topics of current relevance to the attention of society.
- To conduct various seminars to help scholars and faculty members build relevant research abilities.
- To assign faculty members to different conferences, symposia, seminars, and workshops in their specialized disciplines and other areas of current interest.
- To provide the institution with the necessary infrastructure to support various research programs.
- To improve data and information sources for conducting high-quality research projects and inquiries.
- To carry out all such similar initiatives that will foster a research culture in the college.
